Paying for care

An overview of terms

PROCESSING

Claims

Claims are requests for your plan to pay for services you receive. We use these to check what your plan will cover and the amount we'll pay. You can find updated status and amounts billed for your claim on your member website or the Aetna HealthSM app.

Provider bills

Bills show the amount you actually owe for services. You'll get this from your provider. You can make payments for what you owe directly to them or through the "Pay Your Provider" link on each of your claims.

Explanation of Benefits (EOB) statements

An Explanation of Benefits statement shows a breakdown of how we process claims. It's not a bill and may not show the current balance you owe. Anytime something changes with your claim, you'll get a new statement.

Coordination of benefits

Some members have health coverage under more than one plan. When this happens, we work with the other carriers to decide which plan pays first and which pays second, based on the rules in your plan documents. We call this process "coordination of benefits," or COB.

YOU PAY

Deductible

The deductible is the amount you pay for out-of-pocket costs for your covered health care before your plan begins to pay.

Each year, you pay 100% of your covered expenses until you meet your deductible amount. For most plans, eligible preventive care is covered at 100% with no deductible when you use network providers.

YOU + THE PLAN PAY

Cost sharing

Once you meet the deductible, you share the cost with the plan. This may be in the form of coinsurance and/or copayments (also called copays).

Coinsurance

A fixed percentage. For example, if your care is \$100 and your coinsurance is 20%, you pay \$20.

Copay

A fixed dollar amount. For example, you may pay \$25 per doctor office visit.

THE PLAN PAYS

Out-of-pocket maximum

The maximum you pay each year for covered expenses. Once you hit your maximum, the plan pays 100% of covered expenses for the rest of the year.

In network vs. out of network

In network

This network option may **cost you less.**

Highlights

Choosing in-network providers may help save you money.

These providers contract with us to offer rates that are often lower than their regular fees. They also work directly with us and send us claims for services you receive. Don't worry — this is all behind-the-scenes work when you stay in network.

Visit **Aetna.com** to find a network provider.

How it works

The provider files your claim and the plan pays them the amount it owes based on the negotiated rate. You pay the remaining costs.

Benefits

- ✓ Lower out-of-pocket costs
- ✓ No balance billing
- ✓ Less paperwork

Out of network

This network option may **cost you more.**

Highlights

Your plan may allow you to visit an out-of-network provider. To find out details, check your Summary of Benefits and Coverage document.

How it works

Out-of-network doctors and hospitals don't contract with us. So that means:

- They normally charge more for their services
- You might have to pay the difference between what your plan pays for services and the amount they charge

Plus, they generally don't send us claims or get approval for coverage when needed. So you may need to handle these details on your own.

Keep in mind

Covered

“Covered” doesn't mean free. A covered health care service is one that your plan recognizes. Your plan only pays for this service after you've met the deductible, coinsurance or copay.

Referral

A referral is like a permission slip from your primary care physician (PCP) to see a specialist or another provider. Many providers can easily send referrals electronically.

In-network providers

Network providers participate in our network and offer special, lower rates for our members. So staying in network can help you save money.

Plans

Choosing a plan that's right for you and your family is so important. That's why we offer affordable options to meet your unique needs. And we'll be right there to help you find the perfect fit.

Stay in network to help lower costs

When you go for care, keep in mind that staying in network has special perks. You may have lower out-of-pocket costs, because these providers have agreed to accept our contracted rate for services. Plus, they'll file claims for you, so you don't have to worry about any extra work.

Know what to expect if you go out of network

Some plans may have out-of-network benefits, too. Just know you may have higher out-of-pocket costs. Plus, you may have to file your own claims and/or get preapproval for some services.

Understand that we cover emergency care

In case of an emergency, we'll cover care both in and out of network. So whatever plan you choose, know you can count on us when the unexpected happens.

Medical

Aetna Choice® POS II health benefits and insurance plan

So many options for the doctors you need

You don't have to choose a primary care physician (PCP)* with this plan. But selecting a PCP is still important because they do more than give you a checkup. They:

- Get to know you and your medical history
- Guide you on important health decisions and direct your care
- File claims for you

Plus, you may pay less out of pocket for their care.

Keep in mind — you don't need a referral to see any network doctor. And you can visit any licensed doctor out of our network. But if you go out of network, you may have to file your own claims and pay more out of pocket.

This managed care plan may not cover all of your health care expenses. Read your contract carefully to determine which health care services are covered. To contact the plan if you are a member, call the number on your ID card; all others, call 1-888-98-AETNA (1-888-982-3862) (TTY: 711).

Aetna SelectSM health benefits plan

Choose an Aetna® network doctor to direct your care

A primary care physician (PCP)* does more than give you a checkup. They:

- Get to know you and your medical history
- Guide you on important health decisions and direct your care
- File claims for you
- Give you referrals to other network doctors

Plus, you may pay less out of pocket for their care.

This plan has in-network benefits only.

*In Texas, PCP is known as physician (primary care). In the State of Washington, PCP refers to primary care provider.

* MinuteClinic currently provides treatment services for the following chronic conditions: diabetes, hypertension, hyperlipidemia, hypothyroidism, and sleep apnea.

** Applies only to covered services at MinuteClinic. This information does not apply to members enrolled in qualified high-deductible health plans: such members must meet their deductible. However, such services would be subject to negotiated contract rates. Once the deductible has been met, such members will be able to access MinuteClinic® services at no cost-share. Members in indemnity plans are not eligible for this benefit. Such members should refer to their benefit plan documents in order to determine coverage and applicable cost share for walk-in clinic benefits and services, as applicable. Visit **MinuteClinic.com** for age and service restrictions. Aetna® and MinuteClinic, LLC (which either operates or provides certain management support services to MinuteClinic-branded walk-in clinics) are part of the CVS Health® family of companies. Aetna is not responsible for services received at MinuteClinic locations.

Feeling your best

From time to time, we all feel a bit down or stressed — but sometimes these feelings can persist and get in the way of daily life. They could be brought on by something related to physical health. It's important to know that these feelings are common and, most of all, treatable. But the condition must be diagnosed first.

Your medical plan includes mental health benefits. So you'll get the help and resources you may need to work toward feeling your best. These resources include:

- 24/7 support to help you find the right care
- Face-to-face counseling in the provider's office, virtually or through telehealth
- Online resources and tools, and more

how to better manage your emotions and improve your overall health in about eight weeks.

Once you connect with an Aetna® or AbleTo representative, they'll explain more about the program and how it can help. They'll also answer any questions you have.

Aetna® does not recommend the self-management of health problems. Health information programs provide general health information and are not a substitute for diagnosis or treatment by a health care professional.
