### Independent Auditors' Report

The Retirement Allowance Committee  
Retirement Plan for Chicago Transit Authority Employees

We have audited the accompanying statement of plan net assets of the Retirement Plan for Chicago Transit Authority Employees (the Plan) as of December 31, 2006 and the related statement of changes in plan net assets for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Plan's 2005 financial statements and, in our report dated June 16, 2006, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 31, 2006, and the changes in its net assets for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and the schedules of funding progress and employer and employee contributions for the pension and healthcare plans, respectively, are not a required part of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and we express no opinion on it.

A handwritten signature in blue ink that reads "Hill, Taylor LLC".

October 12, 2007

## Management's Discussion and Analysis

This discussion and analysis of the Retirement Plan for Chicago Transit Authority Employees (the “Plan”) provides an overview and analysis of the financial statements of the Plan, including highlights and comparisons for the year ended December 31, 2006. For more detailed information regarding the Plan’s financial activities, the reader should also review the Plan’s financial statements, including the notes and supplementary schedules.

### Financial Highlights

- The net assets held in trust for plan benefits totaled approximately \$1.12 billion at December 31, 2006 compared to \$1.18 billion at December 31, 2005. The net assets are available for payment of members’ pension and health care benefits. Net loss to the Plan decreased by \$36.5 million in 2006.
- Revenue for the year was \$242.2 million, which was comprised of contribution revenue of \$53.5 million, net appreciation of investment of \$166.0 million and investment income of \$29.1 million, net of investment expenses of \$6.4 million.
- Benefit payments to retirees increased by \$10.3 million in 2006 due to an increase of \$14.4 million in pension benefits and a decrease of \$4.1 million in health care costs. Refunds of member contributions decreased slightly during the year.
- The funded ratio of the Plan for both pension and healthcare was 30.2% at December 31, 2006 compared to 34.4% at December 31, 2005. This resulted from a decrease of actuarial value of assets of \$132.9 million and an increase in actuarial accrued liability of \$45.1 million, as computed by the Plan’s actuary.

### Overview of the Financial Statements

The basic financial statements consist of a Statement of Plan Net Assets, a Statement of Changes in Plan Net Assets, notes to Financial Statements, and Required Supplementary Information. The financial statements are prepared on an accrual basis in accordance with generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB) and are described below:

- *The Statement of Plan Net Assets* presents the Plan’s assets and liabilities and the resulting net assets held in trust for plan benefits at the end of the year. This statement reflects the Plan’s investments at fair value as well as receivables and liabilities.
- *The Statement of Changes in Plan Net Assets* presents the additions and deductions to the Plan during the current year. It reflects the investment income and net realized and unrealized gains or losses during the year, along with members’ contributions and employer’s contributions; and then subtracting benefit payments, refunds, and administrative expenses.
- *The Notes to Financial Statements* provide additional information for a better understanding of the data provided in the financial statements. They explain the purpose

of the Plan, significant accounting policies, investment details, and also show detail of administrative expenses.

The Required Supplementary Information consists of two Schedules of Funding Progress, and Schedules of Employer and Employee Contributions for the pension and healthcare plans, respectively, as well as the related notes to discuss the actuarial assumptions and methods. Together, these schedules provide historical trend information to enhance understanding of the financial position and the changes in the funded status of the Plan over time.

- *The Schedule of Funding Progress* contains actuarial valuations of the status of the plan in an ongoing as well as historical basis. Actuarial liabilities in excess of actuarial valuation of assets indicate that insufficient assets have been accumulated to fund future benefits of current members and retirees.
- *The Schedule of Employer and Employee Contributions* contains historical trend information of employer and employee contributions. It shows the value of total annual contributions the employer must pay as determined under the parameters in GASB Statement No. 25 for the pension plan and GASB Statement No. 43 for the healthcare plan and the related percentage the employer has contributed to meet its requirement.

### Plan Net Assets

A condensed schedule of Plan Net Assets is presented below:

**Plan Net Assets**  
(in millions)  
As of December 31, 2006 and 2005

	<u>2006</u>	<u>2005</u>	<u>Change</u>	
			<u>\$</u>	<u>%</u>
Cash and cash equivalents	\$ 43.6	\$ 64.4	\$ (20.8)	-32.3%
Receivables	11.2	9.6	1.6	16.7
Brokers – unsettled trades	78.8	2.6	76.2	2,930.8
Investments, at fair value	1,087.9	1,130.0	(42.1)	-3.7
Invested securities lending collateral	89.8	76.5	13.3	17.4
Total assets	<u>1,311.3</u>	<u>1,283.1</u>	<u>(28.2)</u>	
Brokers – unsettled trades	80.7	2.8	77.9	2,782.1
Securities lending payable	89.8	76.5	13.3	17.4
Accounts payable and accrued expenses	20.8	19.7	1.1	5.6
Total liabilities	<u>191.3</u>	<u>99.0</u>	<u>92.3</u>	
Net Plan Assets	<u>\$1,120.0</u>	<u>\$1,184.1</u>	<u>\$ (64.1)</u>	-5.4%

Plan net assets decreased by \$64.1 million or 5.4% at December 31, 2006 compared to prior year, primarily due to a 3.7% decrease in investments of \$42.1 million. Receivables

increased by \$77.8 million at December 31, 2006 due to year-end contributions receivable and pending sales of securities. Liabilities increased by \$92.3 million at December 31, 2006 due to increases in pending securities purchases, liability for cash collateral related to securities lending and accounts payable and accrued expenses.

### Changes in Plan Net Assets

The following schedule presents a condensed comparison of various Changes in Plan Net Assets:

**Changes in Plan Net Assets**  
(in millions)  
**Years Ended December 31, 2006 and 2005**

	<u>2006</u>	<u>2005</u>	<u>Change</u>	
	<u> </u>	<u> </u>	<u>\$</u>	<u>%</u>
<b>Additions:</b>				
Member contributions	\$ 17.8	\$ 15.0	\$ 2.8	18.7%
Employer contributions	35.7	30.6	5.1	16.7
Net investment gains (losses) and investment income	132.7	93.5	39.2	41.9
Securities lending income	0.1	0.1	-	-
<b>Total additions</b>	<b><u>186.3</u></b>	<b><u>139.2</u></b>	<b><u>47.1</u></b>	
<b>Deductions:</b>				
Annuity and disability benefits	246.2	235.9	10.3	4.4
Refunds of contributions	1.4	1.5	(0.1)	-6.7
Administrative expenses	2.8	2.4	0.4	16.7
<b>Total deductions</b>	<b><u>250.4</u></b>	<b><u>239.8</u></b>	<b><u>10.6</u></b>	
<b>Net Decrease</b>	<b><u>\$ (64.1)</u></b>	<b><u>\$ (100.6)</u></b>	<b><u>\$ 36.5</u></b>	<b><u>36.3%</u></b>

Total additions of \$186.3 million in 2006 were higher than the amounts in prior year primarily due to higher net appreciation in the fair value of investments by \$39.2 million in 2006. Investment income, income from securities lending activities, investment expenses as well as members and employer contributions were also higher during the year.

Deductions increased by \$10.6 million for the year ended December 31, 2006 as a result of a \$10.3 million increase in pension benefit payments to participants.

### Plan Membership

The following table presents the changes in plan membership from year-end 2005 to year-end 2006.

**Changes in Plan Membership  
As of December 31, 2006 and 2005**

	<u>2006</u>	<u>2005</u>	<u>Change</u>	<u>%</u>
Retirees and beneficiaries receiving benefits	9,116	8,998	118	1.3%
Active employees	9,710	10,644	(934)	-8.8
Terminated (inactive members) employees entitled to benefits or refunds of contributions	41	35	6	17.1
<b>Total</b>	<b><u>18,867</u></b>	<b><u>19,677</u></b>	<b><u>(810)</u></b>	<b><u>4.1%</u></b>

**Funding Status on both Pension and Health Care Plans**

The actuarial value of assets, for both the pension and health care plans, using the GASB 25 method, for the December 31, 2006 valuation was \$1.0 billion and the actuarial liability was \$3.5 billion. The actuarial value of assets decreased by \$132.9 million and the actuarial accrued liability increased by \$45.1 million in 2006 over the 2005 levels. The assets currently fund 30.2% of this liability, a decrease from the 34.4% funded ratio in 2005. The decrease in the actuarial value of assets reflects the actuarial loss in 2006 from investment returns less than the assumed rate of return and pay increases during the year, offset by the actuarial gain from the lower number of employees retiring in 2006, fewer employees became disabled in 2006 than expected and also the healthcare claims increased at a slower rate during 2006.

**Investment Activities**

The Plan's assets held for investment were \$1.1 billion at year-end 2006, a decrease of \$62.9 million over 2005, with a total plan rate of return of 13.5% for the year. The continued rally in share prices in domestic and foreign equity markets during 2006 contributed to the gain in equity securities. Domestic investment managers returned 15.1% while foreign investment managers returned 24.6% at December 31, 2006. The fair value of the Plan's assets is impacted by the volatility of the financial market and changes in the economy. Therefore, these rates of returns will fluctuate in future years. The Plan's investment asset allocation stayed within its target asset allocation ranges with 46% of assets invested in domestic equity, 5% invested in international equity, 10% invested in real estate, 6% invested in private equity, 6% invested in hedge funds and 27% invested in fixed income, including 23% in stable value.

**Investment Returns**  
**Years Ended December 31, 2006 and 2005**

	<u>2006</u>	<u>2005</u>
Total Plan	13.5%	9.2%
Benchmark portfolio	12	6.4
Domestic equities	15.1%	9.9%
Benchmark (Wilshire 5000)	8.2	8.0
International equities	24.6%	10.2%
Benchmark (MSCI EAFE)	26.3	13.5
Fixed income	4.6%	3.5%
Benchmark (Lehman Aggregate)	4.3	1.6
Real estate	10.0%	24.9%
Benchmark (CPI+5.5%)	7.1	8.7

**Effects of Economic Factors**

***Funding***

The Plan's funding objective is to meet long-term benefit obligations by accumulating sufficient assets through contributions and investment income. The Plan is well funded when it has sufficient assets to meet all expected future obligations to participants. The Plan's funded ratios have declined from 39.4% in 2004 to 34.4% in 2005, and to 30.2% in 2006. This trend is more pronounced in recent years, but has been developing over the past twenty-six years. The reasons for the steady decline in the funded ratio from 1981 to the present included, insufficient employer and employee contributions, several early retirement programs, increased benefits and dramatic increases in the cost of health care.

**Contact Information**

This financial report is designed to provide the employer, plan participants and others with a general overview of the Plan's finances and to show accountability for the monies received. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

**RETIREMENT PLAN FOR CHICAGO  
TRANSIT AUTHORITY EMPLOYEES**

**NOTES TO FINANCIAL STATEMENTS**

**YEAR ENDED DECEMBER 31, 2006**

**1. Description of the Plan:**

The following brief description of the Retirement Plan for Chicago Transit Authority Employees (Plan) is provided for general information purposes only. Arbitration awards are periodically handed down and negotiated changes occur. These changes can revise certain provisions of the Plan with respect to the Chicago Transit Authority (CTA), employee contributions, retiree medical benefits, and employee death benefits. Those changes which affect the Plan are summarized in the following notes. Participants should refer to the Plan Document, as amended, for complete information.

**General**

The Plan is a single-employer contributory defined-benefit public pension plan covering all full-time permanent employees of the CTA. The Plan is administered by a Retirement Allowance Committee composed of members appointed by the CTA, the Amalgamated Transit Union (ATU), and bargained for employees not represented by the ATU. The Plan is classified as a "governmental plan" and is, therefore, exempt from certain provisions of the Employee Retirement Income Security Act of 1974.

The Plan was amended effective January 8, 2003 to comply with new federal legislation and make changes to certain actuarial assumptions.

As part of the Arbitration Award ruling of November 12, 2003, the following ad hoc increases were given to retirees in payment status as of January 1, 2000:

- a. \$75 per month for members retired before January 1, 1980.
- b. \$50 per month for members who retired on or after January 1, 1980 but before January 1, 1991.
- c. \$40 per month for members who retired on or after January 1, 1991 but before January 1, 2000.

The Arbitration Award ruling also limits to only employees hired on or before September 5, 2001 to be eligible for retiree health care benefits.

**Participation and Pension Benefits**

Employees who have completed one year of continuous service are eligible for participation. At December 31, 2006 and 2005, the numbers of participants were:

**RETIREMENT PLAN FOR CHICAGO  
TRANSIT AUTHORITY EMPLOYEES**

**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

**YEAR ENDED DECEMBER 31, 2006**

**1. Description of the Plan (Continued):**

	<u>2006</u>	<u>2005</u>
Retirees, disabled participants, and beneficiaries of deceased retirees currently receiving benefits	9,116	8,998
Terminated employees entitled to benefits but not yet receiving benefits	41	35
Current employees:		
Vested	4,637	4,606
Nonvested as to employer contributions	<u>5,073</u>	<u>6,038</u>
	<u>18,867</u>	<u>19,677</u>

Employees are entitled to annual pension benefits upon normal retirement at age 65, in an amount generally based on a percentage of the average annual compensation in the highest four of the ten preceding years multiplied by the number of years of continuous participating service. For employees retiring before December 1, 1987, the percentage was 1.65%. The agreement between the CTA and its unions, signed in September 1987, raised the percentage to 1.70% and 1.75% for retirements on or after December 1, 1987 and 1989, respectively. The agreement between CTA and its Unions, signed August 1993, raised the percentage to 1.80% and 1.85% for retirements on or after January 1, 1993 and January 1, 1995, respectively. The Arbitration Award of November 12, 2003 increased the benefit multiplier for service after June 1, 1949, from 1.85% to 2.00% for employees retiring from January 1, 2000 to December 31, 2000 and to 2.15% for employees retiring on and after January 1, 2001. The multiplier for employees retiring before January 1, 2000 remained at 1.85%. During 1995, a Voluntary Early Retirement Incentive Program was offered which provided a percentage of 2.05% for employees retiring after January 1, 1994. Employees who met the requirements for early retirement had until February 28, 1995, to respond. During 1997, the Plan offered a Voluntary Early Retirement Program to eligible employees who have 25 years of continuous service on or before December 31, 1999 and have not retired prior to January 1, 1997, in the form of a retirement allowance of 2.40% for each year of continuous service with a maximum retirement allowance of 70% of the employee's annual compensation. All eligible employees elected to participate were allowed to retire as soon as possible but no later than December 31, 1999.

**RETIREMENT PLAN FOR CHICAGO  
TRANSIT AUTHORITY EMPLOYEES**

**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

**YEAR ENDED DECEMBER 31, 2006**

**1. Description of the Plan (Continued):**

The Plan permits early retirement at age 55, generally with reduced benefits. However, in the event of early retirement by an employee who has 25 years or more of continuous service, regardless of age, benefits will not be reduced. All employees receive a monthly pension benefit. Married employees can elect to receive their pension benefits in the form of a joint and survivor option.

**Contributions and Vesting**

Contributions from the CTA and employees are based on a percentage of compensation pursuant to various agreements between the CTA and the Union. Effective December 1, 1995, the CTA contribution increased to 6% of total compensation, and the employee contribution increased to 3% of total compensation. During the period from January 1997 through June 1997, there were no employer or employee contributions to the pension fund due to a union contract agreement, which enforced a pension holiday. Contributions resumed in July 1997.

**Death, Disability, and Other Benefits**

Lump-sum death benefits, based on age and years of service and ranging from \$2,000 to \$8,000, are paid to the designated beneficiaries. Also, the excess, if any, of employee contributions plus interest on such contributions over pension benefits previously paid to the retiree, and spouse in the case of a survivorship option, is paid to the designated beneficiary.

An employee is eligible for a disability allowance if he becomes disabled after completing 10 years of continuous service or, if disability is covered under the Illinois Workers Compensation Act, after completing five years of continuous service. The disability allowance is based on compensation and service to date of disability with a minimum benefit of \$400 per month.

The Plan pays medical insurance premiums for each retiree under CTA-sponsored medical plans. The maximum premium paid by the Plan is limited by the terms of the existing Plan agreement to the level of premiums charged by the CTA to the Plan on December 31, 1999. Starting in 2003, the Plan reimburses CTA for the actual retirees' health care claim costs.

**RETIREMENT PLAN FOR CHICAGO  
TRANSIT AUTHORITY EMPLOYEES**

**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

**YEAR ENDED DECEMBER 31, 2006**

**1. Description of the Plan (Continued):**

A participant's accumulated contributions plus interest (currently 3% annually) are refunded in instances in which the participant is separated from service and has less than 10 years of continuous participation or when a participant with more than 10 years of service is separated and elects to receive a refund of his contributions.

A participant who is separated from service after completing ten or more years of continuous service, is not eligible for a retirement or disability allowance at separation, and elects not to receive a refund of his contributions, is entitled to receive, at normal retirement age, a deferred vested pension based on length of service and compensation to date of separation.

At December 31, 2006, net assets held in trust for plan benefits included accumulated active employee contributions of \$180,109,806, including accumulated interest of \$39,807,350 (active employee contributions of \$143,018,279, including accumulated interest of \$36,133,481, at December 31, 2005).

Employer and employee contribution rates are established through collective bargaining between the CTA and the Union which considers, among other things, an actuarial valuation of the Plan.

The funding policy was changed with Senate Bill 1977, which requires level percent of pay funding beginning in 2009 such that the Plan reaches a 90% funded ratio by the end of 2058. These provisions had no impact on the 2006 financial statements, and will be reflected in subsequent years' financial statements.

**2. Summary of Significant Accounting Policies:**

**General**

The Plan maintains its accounting records on the basis of cash receipts and disbursements. The accompanying financial statements have been prepared on the accrual basis and thus reflect receivables and payables for dividends, interest, investments purchased and sold, and employer and employee contributions that are not recorded in the accounting records.

RETIREMENT PLAN FOR CHICAGO  
TRANSIT AUTHORITY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS  
(Continued)

YEAR ENDED DECEMBER 31, 2006

2. Summary of Significant Accounting Policies (Continued):

General (Continued)

The Plan's financial statement presentation follows the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. This statement required the inclusion of a management's discussion and analysis, which is presented on pages 2 through 6.

For financial reporting purposes, the postemployment health care benefits are considered, in substance, a postemployment health care plan administered by, but not part of, the pension plan.

As provided by GASB Statement No. 26, *Financial Reporting for Postemployment Health Care Plans Administered by Defined Benefit Pension Plans*, total assets of the Plan were proportionately allocated between the pension and postemployment health care plans based on the respective plan's portion of the total actuarial accrued liability as of that date. Changes in plan net assets subsequent thereto have been allocated between the pension plan and the health care plans based on the proportionate share of average actuarial accrued liability, actual activity, or estimates that approximate actual activity of the respective plan.

Contributions and Benefits

The Plan accrues, as applicable, the contributions due but not received from the CTA at the Plan's year end. Pension benefit payments are recorded on the accrual method; death benefits and contribution refunds, including interest, are reflected as liabilities upon approval for payment by the Retirement Allowance Committee.

Interest on Refunds of Participant Contributions

Interest on refunds of participant contributions (\$398,912 in 2006; \$255,804 in 2005) is expensed when the liability for the refunds is recorded. Interest on accumulated contributions from continuing participants is reflected in each participant's account annually.

**2. Summary of Significant Accounting Policies (Continued):**

**Cash, Cash Equivalents and Short-Term Investments**

Cash and cash equivalents include amounts in demand deposits and uninvested funds held by the Plan's investment managers. Short-term investments consist of debt investments, which mature within six months of the date acquired by the Plan.

**Deposits and Investments Disclosures**

The Plan has adopted GASB Statement No. 40 (GASB 40), *Deposit and Investment Risk Disclosures*. GASB 40 establishes requirements for disclosures of interest rate risk, credit risk, concentration of credit risk, and foreign currency risk. Adoption of this pronouncement had no impact on the Plan net assets and changes in Plan net assets.

**Investment Valuation**

All investments are carried at fair value. Fair value of investments in common stocks, corporate and U.S. government and U.S. government agencies bonds and notes, and short-term securities is based on quoted market prices. Estimated fair value of pooled real estate investment funds is based on independent appraisals of underlying properties. Mortgages are valued at expected future cash flows discounted at interest rates which give effect to risk characteristics.

**Security Transactions**

Purchases and sales of securities are accounted for on the trade dates. For purposes of determining the realized gain or loss on the disposal of investments, the average cost of investments sold is used. Gains or losses are included in the statement of changes in plan net assets in the year in which they occur.

**Investment Income**

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded when earned.

NOTES TO FINANCIAL STATEMENTS  
(Continued)

YEAR ENDED DECEMBER 31, 2006

**2. Summary of Significant Accounting Policies (Continued):**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets held in trust for benefits at the date of the financial statements and the actuarial information included in the required supplementary information as of the benefit information date, the changes in Plan net assets during the reporting period and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

**New Accounting Pronouncement**

In 2006, The Fund adopted the provisions of GASB Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. This new standard establishes uniform financial reporting standards for other postemployment benefits (OPEB). Adoption of GASB Statement No. 43 had no effect on the plan net assets and changes in plan net assets.

**Reclassifications**

Certain amounts in the 2005 notes to the financial statements have been reclassified to conform to the 2006 presentation. These reclassifications have no effect on previously reported net assets held in trust for pension benefits.

**3. Investments:**

**(a) Investment Policy**

The primary objective of the Plan's investment policy is to provide a structured approach in implementing the Plan's investment strategies to achieve above average return consistent with prudent risk and investment volatility.

In order to minimize the impact of large losses and to reduce annual variability of returns, the Plan's assets are allocated across major asset classes and diversified broadly within each asset class.

**YEAR ENDED DECEMBER 31, 2006**

**3. Investments (Continued):**

**(b) Investment Summary**

The Plan's investments were held by Northern Trust Company (TNT) as Trustee under a 1996 trust agreement.

Fair value of combined investments at December 31, 2006 and 2005 consisted of the following (amounts in thousands):

	<u>2006</u>	<u>2005</u>
Asset backed securities	\$ 10,401	\$ 2,741
Commercial mortgage-backed securities	4,003	1,088
Corporate bonds	158,988	195,496
Government agency securities	45,761	49,798
Government bonds	9,419	7,613
Government mortgage backed securities	11,684	8,587
Guaranteed investment contracts	-	5,371
Index linked government bonds	414	705
Non-government backed C.M.O.'s	146	374
U.S. equity securities	522,481	589,348
Foreign equity securities	72,313	74,720
Real estate - pooled funds, equity interest, and mortgages	125,710	138,358
Venture capital and partnerships	75,298	52,842
Cash collateral invested from securities loaned	89,809	76,545
Short-term investments and currency positions	43,583	64,389
Other	<u>51,325</u>	<u>2,957</u>
Combined investments, at fair value	<u>\$ 1,221,335</u>	<u>\$ 1,270,932</u>

The cost of combined investments at December 31, 2006 and 2005 was \$986,980 and \$1,157,207, respectively.

Combined net investment income for the years ended December 31, 2006 and 2005, consisted of the following (amounts in thousands):

(c) Investment Risk Disclosure

The Plan's investments are subject to certain types of risks, including interest rate risk, credit risk, custodial credit risk concentration of credit risk, and foreign currency risk. The following describes those risks:

*Interest Rate Risk* – Interest rate risk is the risk that the fair value of debt securities decreases due to increases in the prevailing market interest rate. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways the Plan manages its exposure to interest rate risks is by purchasing a combination of shorter term and longer term investments and by timing cash flow from maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The following table shows the segmented time distribution of the Plan's investments into time periods of maturities based on the investments cash flows.

3. Investments (Continued):

(c) Investment Risk Disclosure (Continued)

*Custodial Credit Risk* – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Plan, and are held by either the counterparty or the counterparty's trust department or agent but not in the Plan's name. The Plan's master custodian holds all investments of the Plan in the Plan's name

*Concentration of Credit Risk* – The Plan's investment policy limits the aggregate amount that can be invested in each asset class. Domestic equity, international equity, fixed income, real estate and private equity investments are limited to 46%, 5%, 33%, 10% and 6% of the market value of the aggregate portfolio, respectively.

The following investments represent five percent or more of Plan net assets at December 31, 2006 and 2005 (amount in thousands):

	2006	2005
ABN AMRO Inc. Plus Fund	\$ 106,542	\$ 133,764
Northern Trust Short Term Investment Fund	-	64,199

*Foreign Currency Risk* – This is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. The Plan had exposure to foreign currency fluctuations as follows (amounts in thousands):

NOTES TO FINANCIAL STATEMENTS  
(Continued)

YEAR ENDED DECEMBER 31, 2006

**4. Derivatives:**

The Plan's investment managers may enter into derivative transactions as permitted by their investment guidelines. A derivative financial instrument is an investment whose payoff depends upon the value of an underlying such as bond or stock prices, a market index, or commodity prices. Derivative financial instruments involve, to varying degrees, credit risk and market risk. The Plan did not invest in derivative instruments during 2006 and 2005.

**5. Securities Lending Program:**

In 1996, the Plan adopted the provisions of GASB Statement No. 28, *Accounting and Financial Reporting for Securities Lending Transactions*. On July 10, 1996, the Board entered into a securities lending agreement with TNT, the custodian to the Plan. The Plan participates in TNT's securities lending program by lending certain securities to borrowers and can earn additional income, which is included in net investments income on the statement of changes in plan net assets. Loans of securities through TNT are collateralized by cash, letters of credit, or securities issued or guaranteed by the U.S. government or its agencies, equal to at least 102% of the current market value of the U.S. loaned securities and 105% of the current market value of the loaned non-U.S. securities. Lending securities involves certain risks, the most significant of which is the risk that a borrower may fail to return a portfolio security. Additionally, the Plan would be exposed to the credit risk of the borrower should the market value of the securities loaned exceed the market value of the collateral pledged.

All securities loans can be terminated on demand by either the Plan or the borrower, although the average term of the loans is 99 days. Cash collateral is invested in the lending agent's short-term investment pool, which at year-end has a weighted-average maturity of 42 days. The relationship between the maturities of the investment pool and the Plan's loans is affected by the maturities of the securities loans made by other entities that use the agent's pool, which the Plan cannot determine. The Plan cannot pledge or sell collateral securities received unless the borrower defaults.

Costs of administering the Plan are funded by plan assets.

**7. Risk Management:**

The Plan is exposed to various risks of loss related to tort, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Plan carries commercial insurance to reduce its exposure to risk of loss. There is no significant reduction in insurance coverage from year to year. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

**RETIREMENT PLAN FOR CHICAGO  
TRANSIT AUTHORITY EMPLOYEES**

**NOTES TO FINANCIAL STATEMENTS**  
(Continued)

**YEAR ENDED DECEMBER 31, 2006**

**8. Risks and Uncertainties:**

Contributions to the Plan and the actuarial information included in the required supplementary information are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions may occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

**9. Priorities at Plan Termination:**

While it is the CTA's intent to maintain the Plan permanently, in the event the Plan terminates, the net assets of the Plan would be allocated and used generally to provide the following, in the order indicated:

- a. Refunds of participant contributions plus interest, less benefits paid.
- b. Retirement and disability benefits to participants who have retired or reached age 65 on date of termination.
- c. In the event a balance remains, it will be used to provide for reduced retirement and disability benefits for all other participants.

**10. Income Tax Status:**

The Internal Revenue Service has issued a letter of determination dated December 19, 1985 and most recently on October 18, 2002, stating that the Plan is qualified under section 401 of the Internal Revenue Code (Code) and is, therefore, exempt from federal income taxes under the provisions of section 501(a) of the Code. The Plan is required to operate in conformity with the Code to maintain this qualification. Plan management is not aware of any course of action or series of events that have occurred that may adversely affect the Plan's tax status.

**11. Operating Lease:**

The Plan has a lease agreement in place for office space. The lease expires December 31, 2013. The minimum future rental lease payments through December 31, 2013 for the next five years and thereafter is as follows (amount in thousands):

2001	1/01/02	1,355,567	2,044,330	688,763	66.3	459,343	149.9

\*The Projected Unit Credit cost method was used starting in the 2003 actuarial valuation.

The Entry Age Normal cost method was used prior to 2003.

\*\*Effective January 1, 2007, the retiree healthcare assets in the Plan have been marked to market under GASB 43. Prior to that, the retiree healthcare assets were allocated in proportion to the actuarial accrued liabilities under GASB 25. This change in method in valuing retiree healthcare assets increased the funded ratio of the Plan in 2006, otherwise the 2006 funded ratio would have been decreased.

See notes to supplementary information.

See notes to supplementary information.

**RETIREMENT PLAN FOR CHICAGO  
TRANSIT AUTHORITY EMPLOYEES**

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PENSION**

**1. General:**

In accordance with GASB Statement No. 25, for financial reporting purposes, postemployment health care benefits are considered, in substance, a postemployment health care plan administered by, but not part of, the pension plan. Accordingly, the required supplementary schedules exclude amounts relating to the health care plan. The actuarial value of assets has been allocated to the pension plan based on the pension plan's portion of the total actuarial accrued liability, and the total contributions used in the calculation of the percentage contributed have been allocated to the pension plan based on the pension plan's portion of the total annual required contribution.

**2. Actuarial Assumptions:**

The actuarial accrued liability, the actuarial value of assets, and the annual required contribution have been determined by Gabriel, Roeder, Smith & Company. The actuarial accrued liability represents the amount that results from applying actuarial assumptions to adjust the projected plan benefits at a given date by the probable financial effect of intervening events (such as changes in compensation levels), to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial value of assets represents an adjustment to the net assets by systematically recognizing over a five-year period difference between the expected return and the actual return on investments. This method is designed to smooth the effect of investment performance on contribution requirements. The annual required contribution is an amount calculated in accordance with the provisions of GASB Statement No. 25 and represents an amount the Governmental Accounting Standards Board would deem a reasonable funding level. Actual contributions required of the CTA and of employees are determined by agreement between CTA and the Amalgamated Transit Union, independent of this calculation.

**RETIREMENT PLAN FOR CHICAGO  
TRANSIT AUTHORITY EMPLOYEES**

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – PENSION**  
(Continued)

**2. Actuarial Assumptions (Continued):**

The information presented in the required supplementary schedules was determined as part of the actuarial valuations as of the dates indicated. Additional information as of the latest actuarial valuation follows:

Valuation date	January 1, 2007
Actuarial cost method	Projected unit credit cost
Amortization method	Level dollar open
Amortization period	30 years
Asset valuation method	5-year smoothed market
Actuarial assumptions:	
Investment rate of return	9%
Projected salary increases	5.5%
Cost-of-living adjustments	None

**3. Employer and Employee Contributions:**

During 1994, contributions were suspended by the CTA and the employees until the first full pay period in March 1995. Effective March 1995, the CTA and employees contributed 2% and 1% of total compensation, respectively. From the period January 1997 through June 1997, there were no employer or employee contributions to the Plan due to a union contract agreement which enforced a pension holiday. Contributions resumed in July 1997 with CTA contributes 6% of total compensation and employees contribute 3% of total compensation.
